

History of Track & Field in Mount Pearl

Pearlgate Track and Field club is a Newfoundland and Labrador Athletics and Athletics Canada affiliated track club in Mount Pearl Newfoundland. They train year-round out of the Pearlgate track and field complex that was built in 1988 for the Newfoundland and Labrador summer games.

Many athletes that have trained at Pearlgate have won provincial titles and some have gone on to medal at the national level.

The disciplines of track and field involve running, jumping, throwing, and encompass the physical movements needed in other areas of physical activity.

The track and field hosts over 40 individual event disciplines for male and female. The track and field provides athletes with the facilities, equipment, a positive training environment, as well as numerous competition opportunities.
